THE METAMORPHOSIS OF ART

part of the Entrepreneurial program

I hope that you find true inspiration through my **message of hope....**

Now if we haven't met yet,

I'm Charlene, a self-taught mixed media artist that started to paint my heart out in 2017.

December 2016 me and my cute little family decided to move from South Africa to Canada.

Lock stock and barrel. Cray, cray, I know right!

I owned a gift shop and Boutique back in South Africa for 8 years where I lived out my creativity daily.

Coming here I didn't have a clue as to what career path I will follow next. I searched high and low, but nothing said, **HERE I AM.....**and we all know if it's not a hell yes, then it is certainly a NO. With all the emotions, homesickness and you name it I had to work through,

I decided to put my frustrations on canvas.

Andddd that is where it all started!

With my first show, I sold most of my originals.

As an entrepreneur and artist, there is nothing more satisfying than to know people can relate and appreciate my work.

So what is with the shop name?

Lol, I get that a lot! Le Papillon is French for butterfly.

It describes best my growth in my art and my new career path! Yeah!!!!

I love what I do and know deep down from my heart whispers that this is my calling!

Now my wish is to bless every beautiful soul out there with **my inspiring art and kind words.**
